## SUPERABRASIVE MACHINING

Cost-saving superabrasive grinding and turning systems for the most difficult to machine parts

HGC-400/500

MAX-510

AGC-100

## SEMINAR

### WHAT IS SUPERABRASIVE MACHINING?

IMTS-2010 - September 16<sup>th</sup> 2010

Thursday

Room N-131 (North Hall 1<sup>st</sup> Floor)

Timings - 9-10am and 1-2pm

Refreshments will be served

HGC-800

STC-400

STC-300

**Superabrasive Contouring - Superabrasive Grinding - Superabrasive Turning**

**AGC-100, 150 / SIG-1500**  
Automated Automotive Production  
Powder Metal Machining  
Aerospace fasteners  
High Production  
Internal

**MAX-510, HGC- 400, 800**  
Land Based - Turbines  
Marine - Turbines  
Aero - Turbines  
Medical

**STC-200, 300, 400, 600**  
Pump & Compressor Impellers  
Punches & Forms  
Interrupted Cuts  
Powder Metal  
Automotive
